Methodology

As part of its independent assurance, Bureau Veritas undertook the following activities:

1. Interviews with relevant personnel of PTT Public Company Limited;
2. Interviews to company representatives from various functions and levels, including top management;
3. Review of documentary evidence produced by PTT Public Company Limited;
4. Review of performance data, a % sample of which back to source;
5. On-site visits to Sriracha Oil Terminal, Chonburi Operation Center, and Region 1 Pipeline Operations Center, which were selected on the basis of risk analysis including the consideration of both quantitative and qualitative criteria;
6. Review of PTT Public Company Limited data and information systems for collection, aggregation, analysis and review;

7. Review of stakeholder engagement activities by gathering of objective evidence, reviewing documents and data, and conducting management interviews with the teams responsible for stakeholder engagement.

Our work was conducted against Bureau Veritas' standard procedures and guidelines for external Assurance of Sustainability Reports, based on current best practice in independent assurance.

The work was planned and carried out to provide limited, rather than reasonable assurance and we believe it provides a limited basis for our conclusions.
